

You've been identified as a close contact of someone who has tested positive for COVID-19 or someone with COVID-19 symptoms. Now what?

This guidance does not apply to individuals who live, work, volunteer or are admitted in a highest risk setting (hospitals, Long-Term Care, retirement homes, congregate living settings)

Wear a well-fitted mask in public, physical distance and maintain other public health measures for 10 days following your last exposure if leaving home. You should **NOT visit any highest risk settings* or individuals who may be at higher risk of illness (i.e. seniors or immunocompromised) for 10 days from your last exposure.
